Your Introductory Video

With every dance competition comes a drive to showcase your best talents and abilities. We would like a short unedited video of your dance routines. This will help us to distinguish and choose teams fairly. Judges will choose teams based on the quality of your dances. The selection methods adopted will be the same as if they were being adjudicated on the day of the event. So, show grit and variety of your talent. You can send us the video via links to the location of a cloud-based storage or send/hand over a flash drive to the contact listed in the last page.
